

Starting a TAFE course in 2022?

Already enrolled but need more support?

Don't feel like you're in this alone, students who have access to additional support have a higher success rate compared to people who study alone. Our program is delivered in a safe, supportive learning environment to small classes via group workshops and individual support sessions. Remote learning options are available.

Time management: Manage deadlines and set learning goals. Learn strategies for juggling learning and the demands of everyday life.

Your learning style: Identify your individual learning style and use strategies that suit you. Learn how to understand assessment and coursework and succeed in completing each part of your course

Digital skills: Learn how to use the TAFE learning platform (Moodle), how to use appropriate software, how to research and how to communicate through multiple channels

Communication skills: Gain skills that you will need in your future workplace. Learn about the many ways you need to communicate both as an employee and as a student.

Getting Ready for TAFE
